

This year Devon Intermediate is fortunate enough to be participating in the William Pike Challenge. The challenge was set up to equip young people with 21st Century skills. This will be the first year that this opportunity is being offered to our students.

The challenge is a year-long programme and requires students to complete five outdoor activities, 20 hours of Passion Projects and 20 Community Service. Our students will need to apply to be on this programme and will be selected by the end of week three of term one. The outdoor activities will be conducted both during enrichments and outside of school hours. The passion projects and community service will predominantly be independent tasks that students will complete in their own time.

Students wishing to apply must complete the application form attached by the end of week two. Please also see attached an information Powerpoint with videos of student experiences and parent feedback.

Additionally, if you would like further information please go to <https://www.williampikechallenge.co.nz/>

\*Hard copy application forms are available on return to school from the office\*
